VOLUME 4

CLEANSER MINE NEAR REDCLIFF

Tests Prove Most Satisfactory—Samples Analyzed and Found Good.

TO INSTALL MACHINERY

And Put Material Up in Packages Ready for the Market.

Seeing bottles of what looked like white sand on exhibition in several of our store and office windows, we started in to make enquiries as to what it was. The more we enquired the more interested we got, until at last we were convinced that Redlick has a commodity here which, on the market, would make us as famous as our natural gas has. This white substance has been named Quicksilver and does the same work as Sassafras, Dutch Cleanser, and kindred compounds. Quite by accident, a deposit of this substance was discovered about two miles from town, and on investigation there was found to be unlimited quantities of it. It is this substance which is to be analyzed and it was found to contain all the properties necessary for making one of the best cleansers on the market.

With the intention of going extensively into the business, a meeting of the directors was held on March 10 of this year. A small building was put up for experimental purposes and slaves installed to separate the oil and sand and small gravel. The material was found to be nothing in the shape of brown, silver, glass, heavy, shiny or flaky, that it was clean. It also makes an excellent cleanser for the hands and is being used now by nearly all the men in our factories. They say there is no oil, ink or grease it will not remove.

The tests have been so satisfactory that it is the intention of the company to install more machinery and put the material up in boxes and place it on the market.

Mr. G. W. Gough, who is getting manager of the company, informs us that they are now trying to figure out the best way of getting this substance on the market, and will be pleased to get any suggestion any one may have to offer. He is quite enthusiastic over its ultimate success, and would be willing to sell shares in the plant and claims or sell the entire output of the mine to any wholesale house or corporation.

There is no doubt in our mind that Quicksilver is a good thing and a money maker, and would be well worth looking into by some one with a thorough knowledge of how to get it on the market.

BELIEVES IN RECIPROCITY.

In many of the Eastern towns penny banking systems are in operation in connection with the schools. If all the boys in town were as thrifty as one of the Review newsmen there would be no need of such a system here. This boy has made a systematic saving of money earned from selling papers until now he has a nice little bank account. In his pocket, in the spirit of the West this young fellow believes in patronizing those who patronize him, and according to his own savings in the bank that bought the most papers. Things changed, however. One day on his regular round trip to the bank he was turned down by all hands. No one bought his papers. Being now a boy of means, and again exhibiting the spirit of the West, he decided that money talks and threatened to withdraw his deposit if there was not some display of respect for the part of the bank. None being forthcoming he walked out with the air of a Carnegie, went to his bank, wrote out his check for the amount of his savings and had his account transferred forthwith. If everybody in business in town followed along these lines there would be very little money go out of Redlick for goods that can be bought at home.

BIRTHS.

Henderson—In Redlick, on Sunday, March 26, 1911, to Mr. and Mrs. William Henderson a son.
Hargrave—In Redlick, on Monday, March 26, 1911, to Mr. and Mrs. H. Hargrave, a son.

Stores Will Close on Good Friday

As Friday, April 10, will be Good Friday, and is observed as a public holiday throughout Canada, all stores and other places of business in town will be closed up that day. The Review will be published on Thursday next week and will also observe the holiday on Friday. A representative of The Review made the rounds and got the assurance from all the merchants that they would close as the day is observed as a public holiday in all towns of any importance from coast to coast. While all ways willing and anxious to close there seemed to be some dissatisfaction as to the manner of observing the day. It was suggested that there should be a "blessed" day for opening up for a few hours after agreeing to close up tight. There should be no cause for this. It is only in the cross-road villages that this is done. Let us all start in next Friday with a real Good Friday holiday, with every place of business closed up tight, and everyone observing the day as it should be observed.

Local Firm Strike Gas in Montana

Realizing the great advantages of natural gas, Messrs. Stearns, Lockwood and Wheeler, the founders of Redlick, are always on the lookout for indications of this valuable commodity in their travels. Their vigilance has been rewarded by the discovery of this present indication promise to be an abundance of natural gas in the town of Havre, Montana.

Mr. E. E. Deffield, who has had charge of the boring operations for this firm here, is at present in Havre overseeing the work there. At present he is down 800 feet and has struck shallow gas which has a much greater pressure than that of gas ever had in this district. They expect to reach the main body at 1,200 feet, and several indications are that it is there in unlimited quantities.

Havre is a prosperous, progressive town of about six thousand population, and naturally its citizens are very enthusiastic over the discovery.

Redlick Dog Gets First Prize at Hat

At the dog show in Medicine Hat last Wednesday evening in Redlick dogs made a good showing. Only Collies were exhibited and these were divided into two classes for lady exhibitors and one for gentlemen. In the ladies' class Mrs. H. R. Moore exhibited Wainwright Belle, an imported bitch owned by Mr. William Gott of Redlick. There were a number exhibited in this class and Wainwright Belle carried off first prize, which was accompanied with a pretty card receiver. Of this winning the judges said she was a handsome bitch, with beautiful hair, well developed body, splendid coat and exceptionally good front quarters.

Mr. Gott's dog, Wainwright Ladie was much admired in his class. He has a perfect head and showed excellent breeding, but, as he was not in condition for showing he just missed the rich ticket.

Will Raise Corn in Redlick District

Both Brown, who have a large farm a few miles west of this place, will plant fifty acres of field corn this year. They planted a few acres of corn last year and the experiment was successful, and it will be one of the standard crops of the district hereafter. The yield last year was close to the average of the best corn raising states, and the quality was good, the ears being well filled.

CAUSE DISCOVERED.

A few men congregated in front of the post office one day this week when one remarked he smelled a peculiar odor. Another of the party replied it was only the smell of the dead letters in the post office. It was only a few minutes till it was learned there might be more truth than poetry in the reply, for at this stage a third man came along and said he had just got a letter out of the post office that was mailed here last January. Mortification had lots of time to set in on that one.

Cleaning and pressing promptly and neatly done by P. J. O'Connor, the Fourth Floor.

Busy Season Assured for Ornamental Iron Works

Get Orders Amounting to \$100,000—Prospects Bright for Busy Season—Will Enlarge Plant and Increase Staff—Expect to Employ 250 Men During Summer.

Mr. H. E. Carson, manager of the Ornamental Iron Works, has just returned from a trip East and brought back with him orders for about one hundred thousand dollars' worth of goods to be turned out by the plant here.

Among some of the biggest orders are for the new G. T. P. Hotel which is to be built at Regina, the new Law Court building in Winnipeg, and the Arts building in Edmonton. Besides that, Mr. Carson has orders supplying the iron work of a number of schools in the three Western provinces.

At the present time about one hundred men are employed at the plant here, but it will only be a matter of a very short time till at least seventy-five more will be added to the pay roll.

Mr. Carson visited all the principal towns and cities from here to Winnipeg, and says a marked improvement

in all lines of business was noticeable. Present intentions all along the line are that building operations will be brisk this summer. This, together with the fact that almost every mail brings in plans to be estimated on warrants the prediction that one of the busiest summers in the history of the Ornamental Iron Works is assured.

Mr. Carson says that with the orders now in hand and the hope of getting a share of the business now being figured on he will be giving employment to at least 300 men within the next few months.

The company is now considering the question of enlarging their plant, and it is expected that work on the new part will be commenced about the middle of summer.

The Ornamental Iron Works has already been one of our best industries, and our readers will be glad to learn of its increasing business and enlargement.

Boot and Shoe Co. Is Getting Ready

Engage Travelling Salesmen Who Are Getting Samples Ready—Employees Building Houses.

The Alberta Shoe Manufacturing Company has completed arrangement to have two travelling salesmen start out on the road selling their goods out on the west during the summer within the next thirty days. At present the salesmen are at the factory, acquainting themselves with the goods being manufactured, and it is expected that within the next month they will have their samples made up and ready for the road.

A number of the married men now employed have purchased lots and intend building houses in Phoenix near the factory. We are also informed that the houses being built by Hodgson, Leader & Good will be purchased by other employees as soon as they are finished.

Since the above was set up we learn that two more married men have arrived in town to work in this factory. These are Mr. J. E. Hemmaway, who will have charge of the sole leather department and Mr. E. Lauer, who takes charge of the department where the uppers are made. With these gentlemen experienced men, these gentlemen are greatly surprised with the busy appearance of our four-year-old town and surprised to see that the shoe factory here was the most modernly equipped of any on the continent.

Young People Give Surprise Party

About twenty-five friends of Miss Miron Sherrin gave her a surprise last Monday evening when they assembled at her home to celebrate her birthday. After the object of the surprise party was informed of the party a most pleasant evening was spent. Progressive five hundred was played, and when the score was added up it was found Miss Palmer had won first prize for the ladies, and Mr. Gallagher for the gentlemen. The ladies' beauty prize was won by Miss Tremble and the gent's by Mr. Holgate, both of whom were presented with a bottle of cologne.

A dainty lunch was served, after which a pleasant musical hour was spent. Besides being the recipient of many individual birthday gifts the Extra-News Club presented Miss Sherrin with a glass case set.

Mr. McLeich, who has been confined to the Medicine Hat Hospital for six months and underwent an operation, returned to Redlick Monday. His many friends here were glad to see him, and he was soon back to work. Mr. McLeich is in the prime of life, and the efficiency of the medical and nursing staff at the hospital and wishes to extend his thanks to the hospital staff and people of the Hat for the many acts of kindness shown him while there.

As next Friday will be observed as a holiday The Review will be issued on Thursday, March 9. Advertisers are requested to get their change of copy in not later than Wednesday noon. The Review.

Will Lay Out Plans for Sewer System

It will be remembered that at the Ontario Building Trades Association, the Council authorized the Public Works Committee to employ Mr. Francis, or Mr. Francis, to lay out a sewer system for the town. Ward was reserved from Mr. Francis on Monday to the effect that he accepts the town's proposition. He left Montreal for Redlick yesterday and expects to be here early next week prepared to go on with the work. Mr. Francis is considered one of the best engineers in Canada. He has installed the Moose Jaw system, and has employed by the Dominion Government to investigate the Quebec bridge disaster.

It is expected that as soon as Mr. Francis has submitted his report the town will take steps to have the sewer system installed.

Will Form a Gun Club in Redlick

A movement is on foot at present to form a gun club in Redlick. About twenty-five shooters have already signified their willingness to join and are anxious that a club should be formed as soon as possible. With this in J. L. Landis's office on Monday night next at 8 o'clock. Already several shots have been offered to the club for their traps. The question of which one will be accepted will be decided at the meeting Monday night. All interested are asked to attend. It is the intention to have representatives at the tournament in Calgary in July.

TIME TO WAKE UP.

With the admission that it is time to wake up, the editor of the Medicine Hat Times presents a remarkable illustration of the desperation attitude the conclusion that the "Hat" is caught little in the ravages of industrial activity shown by Redlick and other towns of the province. Come to think of it, that is not a very favorable to this manufacturing center, no we heartily, and ungrudgingly wish to see the "Hat" efforts to find a vulnerable point in the armor of apathy that surrounds our common sense neighbor.

The Entire News Club, held their monthly dinner in the Palace Hall last Wednesday evening. There was a good turnout and a jolly evening was spent. The excellent music furnished by the Amuse U Theatre orchestra was much to the success of the evening. About midnight Mr. Frank Denney was the most popular man in the room, the delay lunch he provided came in just at the right time.

Will Build Brick Cottage Schools

At a meeting of the Board of Education held last Monday evening, it was decided to alter the original plan and have the three new cottage schools which are to be erected this summer, built of brick instead of frame. The change was decided on by the Board when it was learned that for frame buildings the debentures could only be spread over a term of ten years, while for brick the limit was twenty years.

The by-law authorizing the sale of debentures will appear in next issue. When the necessary publicity required by law has been given, the board—providing no objections are raised by the ratepayers—will proceed at once with the work of construction.

The schools are to be 24x32 feet, with 10-foot brick walls and basement, the full size for play rooms. Each school will seat forty-two pupils.

All the ratepayers recognize the wisdom of the board's move in their endeavor to bring the school to the children rather than the children to the school, no objection to the present plan is anticipated.

When these ward schools are completed and the congestion in the present public school relieved it is the intention of the board to have high school and certificate work taken up.

LAUREL HOTEL CHANGES HANDS

During the past week the Laurel Hotel has changed hands. Messrs. Jamieson & Yers have sold out the interest to Mr. Bert Oakes, formerly of Moose Creek, but of Redlick now.

Mr. Oakes took possession on April 1st, and immediately devoted his time to looking over the premises with a view to making such changes as will make the Laurel the most up-to-date hotel in the country. Mr. Oakes has had a wide experience in the hotel business and comes to it with a reputation as a capable manager and good citizen.

It is his intention to dispose of his business and devote his whole time and energy to the Laurel. As soon as sewer connections are made it is Mr. Oakes' intention to have running water in all the bedrooms, and baths connected with all the bedrooms on the first floor.

Mr. Oakes will reinforce his attention and will be stocked with the best wines, ales, liquors and cigars on the market.

The deal for the transfer of this business was put through by the Canadian-American Hotel Company.

REDFLICK TRUCKS USED ON THE FARM

A two-ton truck that comes pretty nearly to doing as much work as ten hired men and four horses, is one of the interesting features of a big farm near Redlick. The truck is used to haul loads between the farm and town, making twice as good time as a team, and hauling twice the load. The farmer hitches the truck to a plow or犁, and it does the work of two teams. When the hauling is done, the truck is run into the barn, the wheels jacked up, a belt slipped over a rear wheel, and it runs a few feet, and is a separator. It's a home-made truck, too—made in Redlick.

TO BE REPEATED. CONSERVATIVES WILL ORGANIZE HERE

The Conservatives of Redlick and district will hold a meeting in the hall in connection with the Northern Hotel, on Wednesday evening of next week, for the purpose of organizing a Conservative Association, electing officers and taking up other matters of interest to the town and constituency. There will be speakers present from outside points, besides local talent to address the meeting on the political issues of the day. All interested are cordially invited to attend.

Mr. P. J. Boyce, special public works officer connected with the division of the Public Works, of Winnipeg, was in town this week getting acquainted with the town and its people. He is the son of a native of Redlick. While here he secured a number of new subscribers.

Leave your order for your new spring suit by P. J. O'Connor, the Fourth at tailor.

PROSPECTS BRIGHT FOR BRICK CO.

Manager Returns from Trip—Building Cheaper This Year.

WILL MAKE ORNAMENTAL BRICK

At Plant Here as Soon as Clay is Available—C. N. R. to Build to Redlick.

Manager Selthorn, of the Redlick Brick and Coal Company, returned Tuesday from a trip of several weeks duration in search of business and information as to the prospects for building this year.

He estimates that the amount of building this year will exceed that of last year, and reach a volume of about three-fifths of that of the banner year of 1912. Building will get away to a late start, however, and will not be in full swing until June 1. It will continue active until late in the fall. Contractors and builders will be obliged to figure closer this year, and do business on a smaller margin than hitherto. Business may therefore be done considerably cheaper this year.

Mr. Selthorn looks for a gradual revival of business with normal conditions by next year. He has some inside information that the Canadian Northern is preparing to build a line of steel rails, and as soon as the funds are available work will commence on the grading for the line in Redlick, and a large number of men will be employed. The Brick and Coal Company has orders in plenty to keep the plant going at a capacity pace, but there is a tendency to delay deliveries. They are preparing to make a new mould for bricks, and will have them ready by the first of the new haul building in Calgary. They are a light gray, and will be made as soon as the clay is available.

FOOTBALL GAME HERE GOOD FRIDAY

The Redlick Canadian football club held the regular meeting last Tuesday evening and gave instructions to have the uniforms ordered at once. They are expected to arrive here in a few days, when regular practice will be started. The season will open in Redlick on Good Friday with a game against the Canadian Club of Medicine Hat. A good game is anticipated.

A practice game will take place on Saturday at 6 o'clock, and all members are requested to turn out.

OPENING HERE FOR MARKET GARDENING

There are three thousand people in Redlick eating imported vegetables, when there is a quarter section of land at the south end of the town excellently adapted to truck farming. The water is all ready to irrigate it, and some intensive cultivation there would show wonderful results, and realize a fortune for the man who can see the opportunity and take advantage of it.

TO BE REPEATED.

Ladies' Aid Business Meeting at Mohawk Conference.

The Presbyterians ladies will repeat their very popular play in the Maple Hall on Tuesday evening, beginning at 8:15. The many who saw their first performance were very much pleased to be able to attend, have concluded to express their wish that it should be again given, that the ladies, desiring to see the kind of advantage of the town, have agreed to stage it again. With some variations. The proceeds are for the new church, which is so greatly needed. Greet the ladies again with a full house.

Mr. Piper, of Moose Jaw, spent a few days in town this week. He was a successful man, and here and there considers it among his best investments. He notices a big improvement in Redlick since his last visit and predicts for her a bright future. "It's the people in a town that make or mar it," said Mr. Piper, "and Redlick certainly has the making kind."

ROYAL TO BUILD

FINE NEW BANK.

Owing to its rapidly increasing business the Royal Bank finds it necessary to put up a larger building. This move was decided on some time ago and plans were prepared. In the meantime, however, the town has gone ahead so rapidly and the bank's business had increased so tremendously, it has been decided that a larger building than the one first proposed will be necessary. New plans much larger and more elaborate building. These are expected to be ready any day, and as soon as they are approved work will commence on the new building, which will be located on the corner of Broadway and Third street.

ADDITIONAL LOCALS

Next Tuesday night, April 7, will be observed as Ladies' Night at the Redcliff Club. All members are requested to be present with their lady friends.

Mr. Archie Cohen, who at one time was a resident of Redcliff, was in town for a few days this week. He has just returned from an extended trip around the world.

Rev. H. E. B. Wilson, who has been on a visit to England since last November, is expected to return to Redcliff to-morrow evening and will conduct the regular Sunday services.

A number of young men from here went to the Hat last night to a dance. They report having had an excellent time.

The Water Department has sent out bills for water rates. Some of them for two and three months, but the chairman of this department informs us that the discount will be allowed whether one, two or three months is paid.

The members of the Men's Christian League and Union Bible Class will hold a joint service at the A. M. U. Theatre on Easter Sunday afternoon at 2 o'clock. Special Easter music is being prepared for the occasion. All are invited to attend.

The Glass factory is now turning out a new line of Gem jars, for which there is a big demand on the market. This jar is square and has a patent cover which fastens down tight with a lever, making the bottle airtight and much more convenient than the old kind. The factory is working night and day, and has so much work ahead they have not time to close down long enough to repair the ovens.

Messrs. Caulfield, Caldwell and Thomas have bought out the barber and pool business conducted by Mr. Jones. They have moved to the Goody block, next to T. A. Hie's store, and have the building nicely fitted up. Besides a barber shop and cigar store, they will also run a pool and billiard room. At present they have three tables and intend putting in two more, which are now on the road. Their place will be known as the Adams Billiard Parlors.

Truck for the Local Market.

William Alnatie, a farmer living fourteen miles west of Redcliff, was in town Thursday making arrangements for the sale of garden truck in Redcliff during the season. He grows all kinds of vegetables, melons, radishes, peas and will have in a big load of produce twice a week. Mr. Alnatie says the farmers of his district have been experimenting with field corn and they are all going to put in as large acreage as they can get seed to plant. From ten to sixty acres will be planted by the farmers there. He says the hot winds that occasionally damage the wheat and oats of that district have no serious effect upon the corn. They plant the Northern Minnesota variety. The seedling is done as early in May as the weather will permit.

EASTER SALE.

The Easter sale arranged by the Women's Auxiliary of the Church of England will take place on Wednesday, April 15, at the Empire Theatre. There will be a nice selection of fancy and useful goods, and during the afternoon tea will be served by the ladies. In the evening there will be a white drive commencing at 8.30 p. m. to be followed by a box social and dance. Admission 50 cents. Ladies with boxes free.

SLAVERY IS DEFENDED FOR GERMAN COLONIES.

A brief, defending slavery for the colonies, declaring that its immediate abolition would lead to native slavery, is handed in by the governor of German East Africa, Dr. Schmeide, in response to a resolution passed by the Reichstag last year, calling for the termination of household slavery by January 1, 1920. Dr. Schmeide has reported that there were at least 1905 and 1906, while there are about 185,000 slaves in the colony at present—many of them captives in wars as late as 1905 and 1906, while others are being imported even to-day from Portuguese East Africa and British Cape Colony. But the number is steadily growing less.

A law passed a few years ago liberates all children of household slaves born after 1905; deaths are further reducing the number of slaves; many are able to buy their liberty, from sums ranging from \$2 to \$15, and, in addition, many owners are voluntarily giving their slaves freedom.

The governor protests that slavery practically will have ceased to exist without further restrictive measures by 1930, and pleads against setting any fixed date for a general emancipation, which, he declares, would ruin many plantation owners, provoke rebellion among the native farmers and cost the government at least \$2,000,000 to indemnify owners for the loss of their property.

The governor uses arguments that had a familiar ring in the United States sixty years ago. He says that the negro by no means feels the lack of racial liberty as a handicap, that the slavery is a decidedly patriarchal character, that the labor exacted is light, that they are given certain rights, that each work to cultivate their own little garden. By a general emancipation the aged slaves, who are now fed and sheltered by their owners who no longer able to work, would be thrown destitute upon the world.

For good buys on Broadway see the Broadway Specialists, J. L. Landis & Co.

UMBRELLAS AND CHARACTER.

The man who sat nearest the window said he didn't mind the weather.

"It gives me a chance to see how people carry their umbrellas," he said. "I have such firm faith in my umbrella deductions that I would be afraid to choose a wife with them for a guide."

The woman on his left smiled.

"I'm glad I'm not out there in the rain," she said. "You'd be picking out all the kinks in my dress along with the rest of them."

"Oh," said the man, "I stood up a long time ago. You carry your umbrella when I'm fidgety, but the woman across the street. You grab it in the middle and go foraging ahead with the ends of the handle digging into the unfortunate pedestrians who go before and follow after."

"And what does that signify?" she asked.

"Alertness, activity, selfishness, and inconsideration."

"Um-m, thank you," said the woman.

"But just look at the third woman in the procession," said the man. "I pity the men, folks about her house. I dare say they have to get their own breakfast about six mornings out of seven. I never yet saw a woman who dragged her umbrella along so that you could track her by the trail of it who was not dilatory and shiftless."

"That other woman who is hustling along, holding to the top of the umbrella handle like grim death and pointing the tip down and forward in

a kind of south-by-southwesterly direction is altogether different. She would get the world on her if it wasn't for myself. I am not sure that I want to be married to her, either. She'd be too energetic. She'd rush everything before her, and when she took a notion to clean things up a mere man would have nowhere to lay his head. What she is good for is serving on committees."

"That woman in the gray skirt is a second-hand sort of person. She wants to agree with everybody and follows wherever led. Women who carry their umbrellas with the point downward and backward are always housewives."

"But just look at that girl who goes along, swinging her umbrella around in a circle as if it were a magic wand. I like her. She's jolly and good-natured and gets more pleasure out of life than an ordinary person."

"But here," he added, "comes the most even tempered woman of the lot. She cuddles her umbrella protectively under her arm as if she doesn't want even it to get hurt in the crowd. That woman is thoughtful and kind."

The centenary celebration which is to mark the one hundred years peace between Great Britain and the United States is growing in favor among the boundary line. The New York State Assembly having passed by a large majority a bill appropriating \$25,000 for this purpose.

Mr. E. N. H. Fyles and associates sold two of their mineral claims in the Beaver Lake gold district in Saskatchewan last week to a syndicate composed of Medicine Hat and Regina capitalists at a large figure. The claims are located about one hundred miles northeast of La Poudre and are said to be among the very richest of the district. The mineral claims of gold very similar to that found in the Cobalt district in Ontario. The company are retaining three of their claims in the district. Mr. Fyles is a member of the surveying firm, Latich & Fyles, of Medicine Hat.

The Master Grocer Says:

You only need to tell us what you want. Leave the quality and the price to us.

Our groceries are the SUPERIOR quality. We feel that it is a CRIME to sell poor things to eat. Doing this is equal to selling poison; because POOR FOOD IS A SLOW, SURE POISON.

Our prices on groceries are little, because we sell big quantities of them.

FRIDAY, APRIL 3, 1914.

GOOD ROADS SHOULD CONNECT TWIN CITIES.

Now that spring is here and the different Councils are making plans for the summer work, it would be a good idea if the Councils concerned would get together and see if some scheme could be worked out whereby the road from Medicine Hat to Redcliff could be made one of the best pieces of roads to be found in the Province of Alberta.

There is probably no single length of road in the province more used than this one and probably none which had more strangers from all parts of the world passing over it. Would it not therefore be a good idea and at the same time be a good advertisement for the district and the whole province to make this six miles an ideal road.

Redcliff and Medicine Hat could be responsible for the building and maintenance of the road within their respective town limits and the rural municipality and provincial government for the two or three miles between these limits.

Since there is so much hard now-a-days about the importance of good roads and how they should be built up it would be a good idea for our member in the local Legislature to take the matter up and make this a government demonstration road. The system could be laid out by a government engineer who could also oversee the whole work.

If this were done rural councils could learn how to build roads.

This is a matter for the boards of trade for the two cities to take up.

ADVERTISE OUR CHEAP GAS.

During the past week a number of visitors have been in town and in conversation with some of them a matter which we consider of very great importance was brought to our notice. Here is the way it was: "I was told that 'Since you have such an unlimited supply of natural gas and since it is cheap, why on earth don't you have some more elaborate system of street lighting.' That would be one of the best ads you could have for your natural gas."

The suggestion appealed to us very favorably and we pass it on to the Council for their serious consideration.

We understand it is their intention to lay cement walks on Broadway this summer and why not complete the job by making that street the "Great White Way" to other towns and cities of any importance where fuel is so cheap.

We would suggest that ornamental iron lamp-posts be secured with say five globes on each post and place three or four lamp posts to the block all the way along both sides of the street. This surely would make a dazzling sight which strangers would not soon forget.

HEALTH FIRST AIM.

That the town healthy, rather than the city healthy, must be the first consideration in all town-planning projects was especially emphasized at the first Housing and Town-Planning Conference of the Commonwealth of Massachusetts, held in Boston last November. The expressions of opinion from citizens of the State represented all classes of the community were unanimously in favor of individual houses in preference to

apartments in large buildings.

The people of Canada, and especially those in the newer districts could well take example from Massachusetts and make an earnest effort to place upon our statute books laws making it possible to improve housing conditions and to call a halt to the further construction of the abominable apartment house—another name for the tenement—and make it possible for our people to live in the individual home. As for town planning, we cannot commence at too early a date. There is not a village or town in the whole Dominion which has not faults in its planning, the rectification of which means for the ratepayer an unnecessary taxation without accompanying benefits.

Cities and towns in the making should profit by the experiences of older places which have now finding out the mistakes made in early planning.

That the business men of Boston and the state should have taken such an active interest in town-planning problems agurs we are finding out the mistakes made in the cities of Massachusetts and should be an incentive to Canadian business men to take a prominent part in this movement. The betterment of housing conditions and the regulation of town planning is of great concern to the employer of labor, while the matter of planning roads and transportation to and from the centre of business is of moment to all.

REMOVE THE CAUSE.

The Calgary Albertan thinks the Halifax Chronicle is on the right track when in an endeavor to purify elections it suggests disfranchising any voter who takes money for his vote or any who refrain from voting. It seems to us both papers are harking up the wrong tree. It looks like a scheme to shift the responsibility from both political parties on the shoulders of the poor ignorant voter who has learned to think his vote is worth so many dollars.

So long as men are sent out at election time to buy votes just so long will there be votes for sale. If, then, we disfranchise and imprison the buyers there would be no market for votes. It is a case of an ounce of preventative is worth a pound of cure.

If the thaw this week which turned the snow into mud did nothing else, it served to show our town fathers where the low spots on our streets are. They will no doubt profit by this and lay up their main thoroughfares with up when weather permits.

CLEAN-UP DAY.

Since all the towns and cities are going in for a clean-up day, Redcliff might get in the swim. Clean lanes, streets and back yards, with tidy, well kept front yards, make a lasting impression on visitors to our town. Dirty, unkept streets and lanes make just as lasting impressions, but they are not a kind that are a good advertisement for the town.

The clean-up habit is contagious. If you don't believe us, try it. Let one man in a street fence his lot, plant trees, making a front lawn, lanting flowers and keeping his place generally tidy, and not your neighborhood will stop the spreading of the habit. It will only be a matter of time till each will be vying with his neighbor and will be working early and late to make his the best kept plot in the block.

WANT PART OF THE HOTEL LICENSES.

Chief executives and representatives of cities and towns throughout Alberta will frongather in Edmonton on April 15, to meet members of the provincial government and urge the wisdom and necessity of returning to the municipal treasures some portion of hotel and other fees collected by the government. The convention will also consider a proposal that a portion of the increased tax, now collected by the province, revert to the municipalities. It will be remembered that at the last sitting of the legislature the law was changed so that now all the money for hotel licenses goes to the government. Previously the town or city where the hotel was located got half the license fee.

A man who ran up a boarding house bill for \$22.00, and in the absence of his landlady suddenly left the hospitality of her house, leaving a fictitious telegram for her compensation and removing all his baggage, has just been sentenced to three weeks' imprisonment under the provisions of the new criminal code at Calgary.

This should be a warning to those who are tempted by the prospect of "jumping" their boarding house bills.

Uninsured Labor should be protected by Liability Insurance. Let J. L. Landis & Co. write you a policy in a good strong Company.

MARCH.

The month of March is full of starch and temper, and ginger, her divergent goals none imitates, there is no cheap infirmer. One hour she is gay and mild as May, and makes you think of fishing; but while you look for the fish and look, a blizzard comes a-sweeping. March seems to sing of baby spring until she has you grinning and then, she blows! Your snow is melt, and winter has an inning. March has a tune suggesting June or dreamy, mild September, and while you sit she gives a twist and brings in black December. This rattled maid, bold, unafraid, is playing tricks forever, to jell our nerves with crazy curves is always her endeavor. She gives us heat and winds and sleet, and thunderstorm and blizzard. She strikes her eye and springs July, and leaves night in October; all you see red and with her head were soaked till she is sober. But soon she'll slide, and sing her hide, and April, soft and tender, will come and smile in a new style, and fill the world with splendor.

NEW MANAGEMENT FOR

NORTHERN HOTEL

CO-PARTNERSHIP HOUSING.

Successful English Scheme by Which Every Man May Become Part Owner of His Home.

Every man who is doing useful work in society, provided he is thrifty, sober and industrious, should be able to attain to the ownership of his own home. Much of the dissatisfaction with housing conditions that exists at the present day, arises from the unsatisfactory relations between landlord and tenant. Discontent will continue as long as it remains true that the vast majority of people can only call the houses they live in "sheds" from month to month.

A man receiving a moderate salary finds it exceedingly hard to save the first few hundred dollars and, if he borrows money on his individual credit, may be charged too high a rate of interest to make the venture profitable. Even if he does succeed in acquiring his own home, he may be forced to leave the district through loss of employment, and, perhaps, have to sell his property at a disadvantage.

To overcome these drawbacks, a scheme has been put into operation in England which has met with very considerable success in various places throughout the country. A society of tenants is formed, who subscribe the share capital, which is payable in instalments, and issue loan stock at a guaranteed dividend of 4 per cent. A tract of land on the outskirts of an industrial centre is acquired, and the planned, one as a whole, and in accordance with the hygienic, artistic and economic principles of scientific town-planning. As soon as sufficient loan stock has been sold, work is at once commenced on the construction of the houses. Expenses are materially reduced because the society is able to buy materials in large quantities. When completed, the houses are let to the shareholders at ordinary rents. The profits on capital are divided among the tenant shareholders, who, however, are paid in shares and not in cash. When the shares are fully paid up, the members of the society collectively own their own houses. If any member is forced to leave the district, he may still keep his shares and suffer no loss of his savings. Another advantage of this system of collective ownership is that untidiness and carelessness are discouraged by the public opinion of the neighbours, since everyone is interested in the proper care of all the houses. Finally, it may be said that there is no more sensible or safe investment for the people of small means, no better way of getting by something for a rainy day, than by acquiring, through a co-partnership scheme, an interest in substantial well-built home-property.

Conservation of Coal.

The various arguments of coal-mining lessees and their effect in encouraging or discouraging efficient mining; the freight rates in Western Canada and their influence on coal distribution; the fuel problem in the prairie provinces; the utilization of lignites for electricity production; the saving of slack by briquetting; and economical cooking in such a way as to save valuable by-products like gas, ammonia, tar and crosolite, are problems of great importance in Canada's industrial development. These and other related questions are treated in a 312-page report, entitled Conservation of Coal in Canada, by W. J. Dick, M. Sc., recently published by the Commission of Conservation.

Two appendices are added to the report. The first gives a description of the principal coal mines of Canada, showing their methods of mining, transportation, handling, blasting, etc., also the equipment and frequently the output. The second appendix describes briefly the by-products.

WHAT'S IN A NAME.

A curious incident occurred in the divorce court to-day between President Sir Samuel Evans, lately law officer in the Assiniboia ministry, and Donald Armour, a surgeon of Harley street, London, and of Chief Justice Armour, and a well known member of the Anglo-Canadian community. Incidentally Armour was called an American doctor, and he asked the judge's permission to correct the impression that he was an American.

His lordship: "Well, it is no disgrace." Armour: "No, but I am proud of being a British subject, as I came from Canada."

His lordship: "An American is as good as a Canadian and a Canadian is as good as an American."

Armour contented himself with a smile and a bow.

RUTHENIAN PAPER.

CONTINUES ITS ATTACK. "Now," the Ruthenian paper published in Edmonton is continuing its attacks on the English institutions in this province. In its issue of March 10th it enters into a long argument the crux of which is that the English here are unwelcome of the Indians and they have made right might and that if the Ruthenian people will agitate loud enough they will get the British North American Act amended so as to give their language in the schools special concessions. They claim that they have a right to special recognition as a distinct people in this country and bitterly denounce the government and particularly the Department of Education for the stand it has taken with respect to the English language in public schools. Given below is a quotation which is a fair sample of the bitterness contained in this article.

"Mr. Boyle is glad the Alberta laws do not mention anything about the teaching of the Ruthenian language in the public schools. His happiness will soon be ended. The School Ordinance was established before Mr. Boyle was Minister of Education and it has had so many amendments since that one can scarcely recognize it and this though the province has been in existence only ten years. Mr. Boyle is not eternal, nor his Ordinance. That which people have established can be changed. If the British North American Act can be changed so the Alberta Act can be changed so the Alberta

to laws can be changed, they will change them when we demand it and are sufficiently powerful to make our demands felt."

A feature of the Toronto livestock trade last week was the arrival of a carload of lambs from Alberta. This is a new departure. They were not quite up to average Ontario product, the long journey having something to do with their condition. They sold at \$2.00. Forty-four hundred ewes have arrived at Toronto from Alberta were of good quality and prices were \$5.15 off cars. The shipment is causing much comment, following as it does the recent arrival of a consignment of eggs from Edmonton, the first in history to be sent from the west to Ontario.

It is not what you make that counts, but what you save. Now when you can save a dollar in the time to buy.

THE HOME FURNISHING CO.

BIG NEW STORE - THIRD STREET

THE LADIES' AID SURPRISE MR. AND MRS. GORDON.

On Monday morning, in the absence of the pastor and his wife, some young men, helped on the Presbyterian Church a Union Jack that once saw service on a British gunboat. It was flown in honor of two occasions. Mr. and Mrs. Gordon have been guests a continuation in Redcliff by the Home Mission Board, and Monday was Mrs. Gordon's birthday. In the afternoon came another surprise. One might have seen little groups of ladies arriving at Mrs. Johnson's on Third Street about three o'clock they formed in procession, and headed by one carrying a tassel, marched to the Mame. It looked for all the world like a suffragette procession, only instead of carrying banners they carried cakes and other bundles. Altogether unknowing what was taking place, when in reply to a loud knock she opened the door, Mrs. Gordon was a surprised woman to see a host of women confront her. One of them picked her up and carried her to the church. No sooner had they got inside than a big drum was beaten, and handsome easy chairs were carried in, and the President read the following address:

Dear Mrs. Gordon:

We, the Ladies' Aid of our Church, have gathered here to-day to help you to celebrate the anniversary of your birthday, and it is with a great deal of pleasure that we wish you many happy returns of the day, and that you may be spared many, many years to enjoy life.

In the midst of the discouragements of the war, and we wish to include the joys of every-day life, we have found you a faithful and tried friend, and as such your presence is a great joy to accept this small token, as a slight appreciation of the efforts you have put forth among us.

Signed on behalf of the Ladies' Aid, Mrs. A. Parker, Mrs. H. E. Johnson, Mrs. A. Symon, Mrs. C. W. White.

In this Mrs. Gordon made a suitable reply acknowledging the kindness and consideration of the ladies toward her, and their great helpfulness in the work of the church. Mrs. Gordon, who was also called in, expressed his participation in the company and heart-felt appreciation of this and the many kindnesses he had received from the Ladies' Aid and the other women of Redcliff. Then a salute was fired outside the church, which was a surprise to all within, and two young gentlemen appeared, one with a mandolin and the other dressed as a fish-jester. Music, coffee, and cake filled up a pleasant afternoon, which was closed by singing "Bless Be the Tie That Binds."

Forty ladies were present. Mrs. Gordon received other gifts besides the two oak, mission style, arm-chairs.

In the evening a number of the young men gathered to do honor to the occasion, and an impromptu concert was held, which included Gaelic and Welsh numbers as well as English in various dialects.

The Presbyterian Church.

Public worship at 11 a. m. in the church, and at 7.30 in the evening in the Empress Theatre. The first service will treat of "Freedom by Truth," the second will answer the question, "Does God Punish the Sin He Has Forgiven?" All are welcome. Aid Sabbath school meets at 2.15, and the Union Bible Class at 2.30.

On Monday evening another piano and evening will be held by the U. B. C., to which its friends are invited. The Wednesday evening prayer service will have Easter reference, its subject being "Are Our Dead Living?"

The civic meets on Thursday evening. At 3 o'clock on Thursday afternoon the Ladies' Aid meets.

The Rev. Mr. Gordon wishes to express his grateful appreciation of the kindness of all those, not only of his congregation but also outside of it, who so definitely made known their desire that he should be continued in his present charge.

Church of England Services.

Palm Sunday. Holy communion 8 a. m. matins, 11 a. m. in the vicarage, Fifth street and Fifth avenue. Even song at 7.30 p. m. in the Presbyterian Church. Services for Holy Week and Good Friday will be announced on Sunday.

Good Friday, April 10.—In Maple Hall at 7.30 p. m., a lantern service when the world famous pictures of the Passion Play will be shown. Admission, 10 and 15 cents.

Fifteen nationalities are represented by 386 prisoners at the Alberta penitentiary in Edmonton, according to the annual report just issued by Warden McCauley. The United States leads the list with 61, Canada being second with 58.

MEN'S CHRISTIAN LEAGUE.
Last Sunday Rev. N.D. Keith, M.A., of the Alberta Ladies' College spoke to the men on the subject of "Doubt." He spoke of the nature of doubt, of the subject of it, and its cure. It would sound like a purely academic way of treating it, but indeed he handled the subject in a genuinely practical manner so that it was interesting as well as helpful to all who heard it.

This coming Sunday Mr. A. J. Haw Medicine Hat will address the men. Those who heard Mr. Haw when he spoke to us last fall will be glad to have the opportunity to hear him again.

On Easter Sunday afternoon, there will be a union meeting of the Union Bible Class and the M.C.L. in the A. M. U. S. Theatre. This service will be a special musical one and will be addressed by the pastors of the different denominations represented in the community.

Baptist Church.
Services in the A. M. U. S. Theatre. Morning worship 11 o'clock, subject, sermon, "Sugar Cane and a Candle." Sunday school at 11 o'clock; evening, "Why Jesus Went Away." Children's worship at 7.30, subject, "Pete, a Discontented King." This is the fourth of the series on "New Testament Characters Who Are Little Known." Come early and enjoy the song service. At the close of the evening service the ordinance of the Lord's Supper will be observed. You are welcome to all of our services.

Their Coal Bill is \$2,000,000 a Year.

A fact sheet and thirteen charts are necessary to conduct the work of the fuel department of the Commonwealth Edison company, and some of the fuel used in the company. The Commonwealth Edison company burns about 5,000 tons of coal daily and its coal bill is about \$2,000,000 a year. About 20,000 tons is kept in reserve in or near Chicago at all times. Nearly all of this is egg or lump size, as the danger of fire from spontaneous combustion is much less with the larger sizes. Thermometers are placed in all coal piles and weekly records of temperature are taken. It is frequently found necessary to move piles of screenings or mine-run coal to prevent or fight fires.

In Redcliff we have no such enormous bills for fuel. Our natural gas makes fuel a mere secondary consideration.

THE CHAMPION FATHER.
Fernland Egleski, aged fifty-three, a tailor in the village of Ahlbeck, in the Baltic, claims to be Germany's champion father. The father of thirty-five children, twenty-six of whom are still living, nineteen boys and seven girls. Last year, six of his sons were serving simultaneously in the army.

The tailor married at the age of twenty, his first wife who died in 1907. In 1908 he married his deceased wife's sister, who has borne eleven children during the intervening six years. Triplets came on one occasion and twins were born twice. On the occasion of the birth of the sixth son into the army in 1913, Egleski received a private audience with the Kaiser, who ordered him to be entertained in Berlin at His Majesty's expense for a week. After pressing a fifty-mark note in Egleski's hand, the Kaiser clasped him on the shoulder and said: "Just keep up the good work, Egleski! Cracking his heels, standing at salute, the principal chief of Germany's declining birth rate replied: "At your service, Your Majesty." Egleski in the meantime has become a celebrity, and adds handsomely to his tailor shop income by selling picture postcards of himself.

The fifth annual visit of Canadian school teachers to the old country is creating much interest this year. The teachers will sail on the steamship Tuscan, leaving Montreal on July 3 and returning leave Glasgow on Aug. 25.

"The information is premature and of unreliable character," declared Post Grand Master Willoughby, of Winnipeg, when requested to give his opinion regarding the report to the effect that 5,000 Orangemen from all parts of Manitoba would meet in Winnipeg this week to discuss the Ulster situation and to decide what action Orangemen of Manitoba would take in support of men of Ulster.

Three years and two years in the penitentiary were the respective sentences given by Justice Curran last Saturday to Percy Hagan and John Westlake, found guilty by a jury of assisting in the escape from custody of John Krushenko, now standing trial at Moncton on a murder charge. The application of defence counsel for a respite was refused, but an appeal will be taken despite the fact.

Investigate REDCLIFF

It's progress during the past year.

It's prospects for the coming year.

Redcliff's industries are all in operation.

There are Eleven of them—three more under construction—others contracted for.

REDCLIFF'S inside property is now cheap considering inevitable industrial development.

We have the best of it to show you.

J.L. Landis & Co.

Medicine Hat, Toronto Street. Redcliff, 3rd Street.

A Suggestion!

After reading this issue of "The Review," mail it to a friend 'Back East.' They will appreciate your kindness. Try it, please.

ITEMS OF LOCAL INTEREST.

Remember that all the store will be closed on Good Friday and do your shopping Thursday.

Mr. Howard Freeman, who was called to Minnesota owing to illness of his father, returned last week.

Miss Dorothy Brandin, of Medicine Hat, spent last Friday and Saturday in town visiting her brother.

Mr. Michener, leader of the opposition in the Legislature, was tendered a banquet by the citizens of Red Deer.

A gang of men is now at work digging trenches for a water main on First avenue.

The Post-Office Department has issued a notice declaring that the transmission of coin or bank notes in unregistered letters is prohibited.

Mr. Gussow, who has been conducting a barber shop on Third street, has sold out his business to Jack Burk, formerly of Berlin, Ont.

The Rolling Mill was closed down Monday on account of a break in the water main. They opened up again in full force Tuesday morning.

Mr. Roy Crouse, a former resident of Redcliff, has returned to town to take charge of the City Garage. Roy says he thinks Redcliff the best place.

A good crowd turned out to see the Eckhardt company at the Amuse U Theatre last Friday night. The play was entitled "A Woman's Way," and was put on by a good, strong, well-balanced company.

When showing your friends through the industries, don't forget to bring them around to The Review office. We have one of the most up-to-date plants to be found in any town our size in Canada.

Men have been busy putting in a new hydrant on the corner of Broadway and Third street. The old hydrant was not out of commission at the time of the fire in the City Meat Market.

The Hat Board of Trade is trying to devise ways and means to encourage the use of home products in the erection of buildings in their city and district. It is reported in working out a scheme their grist mill and brick plant will likely have to work overtime.

A train load of street cars passed through here from the East for Calgary last Monday. Strangers in town who could not see from a distance that they were on flat cars thought the street railway service, connecting Redcliff up with the rural district, was in operation.

Keep in mind the Hockey Club dance on Monday night in the Palace Hall. The Medicine Hat orchestra will furnish the music. As the club is in need of funds to clean up the winter's expenses it is hoped there will be a liberal turn out at their dance.

Mr. W. J. Lang, who has been down in Saskatchewan for the past few weeks on business, returned home last Friday. Mr. Lang says he heard many inquiries about Redcliff all through Saskatchewan, and as a proof of their faith in the development many are buying property here.

Mr. Duncan, who has been conducting the Palace boarding and rooming house, has purchased the Stephen Hotel from Mr. Moran. As Mr. Duncan has had a wide experience in this line we bemoan for her big business in her new undertaking. The assumes control on April 7.

Mr. T. A. Hixon spent a few days this week in Calgary on business.

Medicine Hat school tax rate will be three mills higher this year than last.

Mr. Wheeler expects to leave next week for a three-weeks' visit to Chicago.

At present there are over one hundred men at work on the city water extensions.

The Woman's Auxiliary will meet at the residence of Mrs. Lydall on Wednesday next at 2:30.

The Overland Department Store is having a new wing placed around the entire store on both streets.

Mr. Ed Cowe left last Tuesday for Mr. Clements, Michigan, with the hope of regaining his old-time health.

Mr. A. E. Swanson, of the J. L. Andra Co., returned to town this week after a visit to friends in St. Paul, Dakota.

A meeting of the Women's Civic Improvement Society will be held Tuesday, April 7, at 3 p. m., in Crowe's Hall.

Dr. Stoner, who has been spending the winter in California, and Mr. Lockwood, who is now in Cincinnati, are expected home next week.

Mr. Lang, of Lang Bros., real estate and insurance agents, was in town this week. Mr. Lang is very optimistic over Redcliff's prospects for the summer.

Hume Pingle says he does not see how he can be expected to run a drug store successfully when the town keeps turning off the water in the store.

Mr. Hayden of the National Cash Register Company, was in town last Saturday installing a new register for U. S. Redcliff Garage. This register was specially built for Mr. Woodcock.

It has been suggested that our Board of Trade get busy with the Postmaster General and have mail boxes installed at the station. They surely would be a source of convenience.

Licenses Inspector Melick, who has been inspector for this district for some time, has been transferred to

WATER WORKS DEPARTMENT.

Tenders are invited for the backfilling of water ditches now being opened. Full particulars can be obtained from me. Tenders to reach me Monday, April 6.

J. E. ARKWITH,
Town Engineer.

Calgary to take over the new district east of that city along the C. N. P. C. T. P. and C. P. R., as far east as Glendon. L. O'Connor, takes over the Medicine Hat district as far west as Bassano, on the first of May.

Because of her love for an underpaid clergyman, Lulu Chamberlain, of Edmonton, stole two letters containing \$100. She gave most of this money to the poor minister, believing, no doubt, she was lending it to the Lord. The law of the "bald didn't look at it that way, however, and the young lady appeared in court charged with theft.

The fellow who pushes the gull for The Review is in receipt of a letter from Mr. S. C. Dunn, who is now in Chicago, congratulating him on his appointment to this staff. We thank Mr. Dunn for his complimentary remark regarding the appearance of The Review and agree with him regarding his views concerning Redcliff's future prospects.

Fred Pearson, who mops all trains for the Redcliff Hotel, looks more handsome than ever in his new top shoes. The hat is quite the latest style and has the name of the hotel across the front.

In last week's issue of the British American, a paper printed in Chicago, we notice a lengthy article headed "Romance of Redcliff." The article reviews the rapid growth of Redcliff from the bald prairie as first seen by Dr. Stoner, who is now in Cincinnati, are expected home next week.

Steadily shown, very reasonable. Gladly shown upon application. A. J. Nicholson, phone 57; office on Broadway.

SPRING TONIC!

A good tonic for Spring is just as essential as spring house cleaning. We have on hand a good assortment for young or old. Just a few jars of gold fish left.
